Professional Experience

2022-now

ACBA OJSC

SAP Business Consultant / Product Manager

I have worked on several projects. For 3-4 months I have worked on SAP CRM project. Also helped with SAP Marketing Project. My main project is SAP Business planning and consolidation. I have gained an official SAP certification on it.

2022-2022

Kruzo

Product Manager

I am the one who is responsible for the roadmap and all business processes, the author of the Lean Canvas, all flow charts, wireframes and SRS documents.

2018-2020

iNexus

Lead Product Development Engineer

Built a web-platform based on Laravel 5 (PHP).

Worked as a key developer for their startup project.

2017-2018

Ucraft

Back-end Web developer

Built the betconstruct.com website with Joomla CMS from scratch.

2015-2017

Upwork

Web Developer

Built user interface applications and back-end database structures using programming and scripting languages (PHP, Laravel Framework and other frameworks).

2013-2015

STDev

Web Developer

Worked closely with project managers and team members to ensure the timely completion of the corresponding deliverables.

Built user interface applications and back-end database architecture using programming and scripting languages.

2012-2013

Bever Computers LLC

CRM Developer

Participated in the collection and documentation of user requirements. Developed and constructed CRM systems for the clients (banks, medical centers).
